

Business environment of Land Administration in Hungary

WG1

Land Administration
and Cadastre

SUMMER SCHOOL

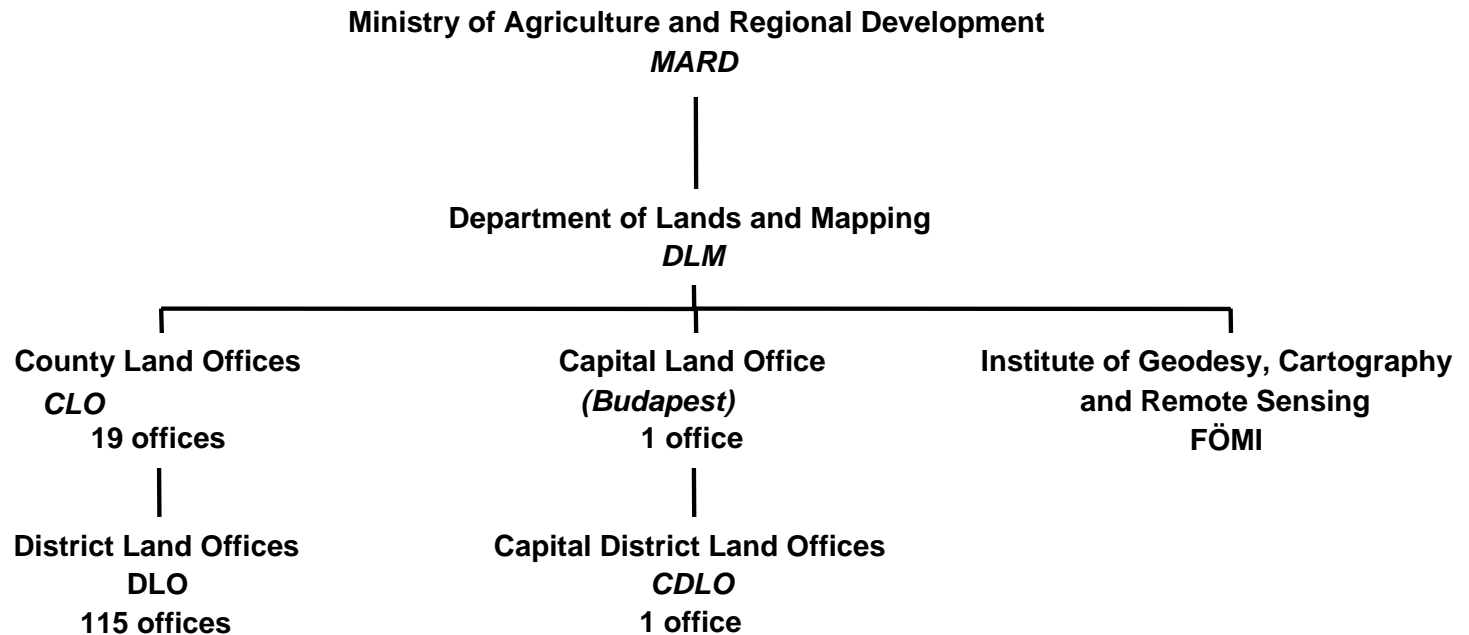

Overview of the work

1. Introduction
2. Land Administration in Hungary and its stakeholders
3. Grove's model
4. Trends and developments
5. Conclusions

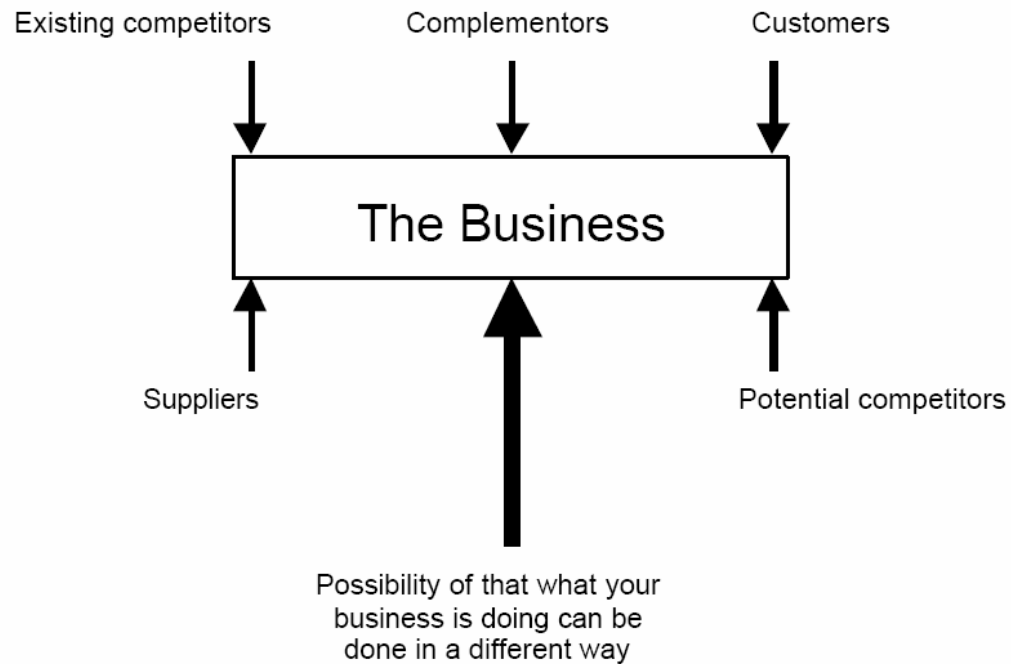

What is Land Administration?

- ✓ Land administration = the processes of determining, recording, and disseminating of information on ownership, value and use of land, when implementing land management policies (UN/ECE, 1996)
- ✓ Land administration = the way the rules of land tenure are applied and made operational. It comprises an extensive range of systems and processes to administer (FAO)

Land Administration in Hungary

Grove's model
